Well this is a special butterfly that has been designed in [celebration of the Presidential Inauguration](#) on Jan 20th. No matter what your political views this is a new beginning for the American People and I hope some peace and harmony will come with the change.

As a proud Australian we have seen so much of the USA over the years and the one thing that stands out is how Country proud it's people are. With that in mind I have designed this butterfly in your Flag colours to help you celebrate this year as the butterfly is a metaphor for Change, Beauty and Peace.

These would also be great for 4th July BBQ's as decoration or to be worn with pride.
