Wow it has been ages since I have gotten on here to blog, Slack Slack Slack....My Apologies

Let me bring you up to date with what we have been up to. Earlier in March we did the ABS Bridal Expo and what fun we had not! It was black Saturday here where Melbourne was on Fire and the heat was killing us. I won't complain to much many lost their lives that day but there we sat in 47 degree heat and watching busy brides run around with their men in toe.

Being able to offer them something different to [beautify their bouquets](#) and [adorn their cakes](#) was fabulous. We had so much interest and have had many sales since. Here is a few pics we took on the day.
